## AmniHook® Amniotic Membrane Perforator

9601

The AmniHook Amniotic Membrane Perforator provides a safe, comfortable method to rupture the amniotic membrane the first time. Each AmniHook undergoes a rigorous, laser vision inspection system to ensure the first AmniHook will be the only one required for the procedure.

The AmniHook® safely "snags" the membrane, eliminating the need to poke or puncture.

- 100% laser-vision inspected
- Rounded tip and protected point designed to rupture the amniotic membrane without injury to mother or fetus
- Disposable, pre-sterilized and individually packaged for convenience
- 10" long, with molded sides and a non-slip grip for precise control
- 100/bx

## Double-Grip® Umbilical Cord Clamp

9423 – Sterile Cord Clamp (125/bx)

9411 – Non-Sterile Cord Clamp (250/bx)

This precision-engineered cord clamp has earned its reputation for perfection. An innovative laser vision inspection system verifies that only clamps meeting 100% of our criteria will make their way to the Labor and Delivery room.

- Safe, disposable, easy-to-apply
- Dual gripping surface prevents slipping during application
- Maintains tight seal and applies constant pressure on any size cord as the cord shrinks
- Hinge guard confines cord between serrated jaws to eliminate movement
- No rough edges to snag newborn clothing or get caught on bed linen

## Cord Clamp® Clipper

9441 – Single Clipper (1/bx)

9445 – Bulk Clippers (25/bx)

Designed to work with our Double-Grip Umbilical Cord Clamp, our Cord Clamp Clipper safely cuts through the specially designed clamp hinge for easy removal from baby.

- Concealed cutting surface eliminates risk of sharp or pointed objects near baby
- Single patient use only to prevent risk of cross-contamination

## PlastiBell® Circumcision Device

A circumcision procedure requiring no special post-operative care or dressing means a significant savings in both time and money.

The disposable PlastiBell Circumcision Device eliminates the need for repetitive and costly sterilization required of stainless steel clamps. No chance of lost or mismatched parts that often render other clamps unsafe or unusable.

- Clear, plastic construction provides visual access at all times
- A clean line of excision; helps to promote rapid healing
- No special dressings required
- Unique shaped handles for easy size identification
- Sterile, individually packaged
- Available in 6 sizes or in assortment packs

Item #	Description	Qty
9210	Hospital Assortment Pack (1.1 cm – 1.7 cm)	125/pk
9230	Physician Office Assortment Pack (1.1 cm – 1.7 cm)	25/pk

## U-Bag® Urine Specimen Collectors

The U-Bag Urine Specimen Collectors are the first choice in convenience, protection and care for an infant's tender skin. This complete system of urine collectors features products to facilitate any infant urine collection need.

- Transparent butterfly patch makes application easy and accurate
- Compatible and comfortable for male and female anatomy
- Double chambered construction with no-flow back valve keeps urine away from skin to help prevent irritation
- Adhesive patch can be folded in half to send sealed specimen to the lab
- Premie size is ideal for NICU use with low birth weight infants
- All 24-hour styles include tubing for drainage into an alternate collection receptacle
- Available in newborn and pediatric sizes

## Disposable FootPrinter

5402

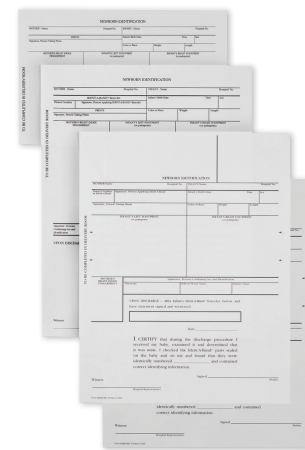

Some of the littlest impressions create the biggest memories. Parents and grandparents alike will appreciate the cherished reminder of the tiny toe prints made at your hospital.

- Over-inking is virtually impossible with our unique Ready-Rolled® ink process
- 4-1/2" x 2-3/8", less than 1/8" thick with stackable edges for easy, compact storage
- Non-toxic, black ink – easy to see and wash off of baby
- 25/pk – 4 pks/bx

## Newborn Identification Forms

Pre-printed on archival quality paper. Perfect for both receiving and preserving infant footprints. When used with our Disposable FootPrinter, these forms assure dependable, readable newborn identification.

- Space for recording pertinent birth information and verifying signatures
- Enough space for two infant footprints and a mother's fingerprint

Item #	Description	Size	Qty
